

EUROPE  
SPRING  
ITALY  
CARNIVAL VENICE FESTIVAL

## • *Dates of Organizations:*

✚ *Carnival is a street carnival that takes place every spring in Venice, Italy. People from all over the world flock to Venice, choosing for themselves the most colorful, eye-catching costumes and accompanied by a mask handcrafted by the people of Venice.*

## ● *Festival Details:*

✚ *The festival dates back to the Renaissance, when everyone wanted to hide their identity and class hierarchy at that time. Carnival was first held in 1296, the 13th century, but when the economy crashed in the 18th century, the carnival was forgotten. And it was not until 1979 that Carnival was held again and since then the carnival is known as one of the important and famous spring festivals attracting great attention of international tourists.*

+ *Carnival in Venice usually lasts 2 weeks, during this time, all the streets and piers of the city are the images of thousands of people hiding their identities under the guise of what they want.*

✚ *Masks are the most characteristic feature of the Venice carnival, making social classes disappear, erasing the age gap, rich and poor, and gender boundaries.*

✚ *The most crowded and bustling gathering is on the street at San Marco square or Saint Mark's square or you can buy tickets to attend the splendid and lavish dance at the theatres.*

VietSens Travel

✚ *There is no single main theme throughout the years, but every spring has a different theme, but the overall purpose is to celebrate the beauty of Italian culture and be a bustling place for people to live. enjoy the refreshing atmosphere of the beginning of the new year.*

✚ When participating in this special festival, the one thing that makes the biggest impression on visitors is the masks and elaborate costumes. Among them, Lavra masks are the most popular and typical in Venice. Lavra is made from white plaster and wax with many sophisticated details such as dragon dance, stone mosaic, silk cloth attached to the hat.

+ All costumes and masks are modeled after photos taken from 1700. In addition to providing aesthetic artistic value, they also recall the extremely brilliant past in the Renaissance culture.
