KOREA
MUD BATH FESTIVAL

- *Dates of Organization:*

✚ *Boryeong Mud Festival takes place for 2 weeks every year in July*

✚ Boryeong is a small town located on the west coast of Korea.

● *Festival Details:*

✚ *Boryeong Mud Festival is located right on Daecheon Beach, the largest and most beautiful beach on the West Coast of Korea. Besides participating in the festival, you can also swim in the sea and play thrilling games.*

✚ The Boryeong Mud Festival was first established in 1999, with the main purpose of promoting cosmetics made from mud in the area.

✚ The mud in Boryeong is rich in minerals, useful for the skin and human health, so it is also used as cosmetics. The main effect of the mud is to absorb and remove sebum (residues on the skin). Besides cosmetics. Boryeong mud emits a large amount of infrared radiation which is very useful for the body, has many minerals, so it has a preeminent effect in skin beauty, certified by the Korean Standard Scientific Research Institute.

✚ The festival is held at Daechon beach boasting the only white powdered sea shell sand in the east, you can both swim and experience mud bath here, and there is also a mud experience event and mud massage.

✚ In addition, at the mud bath experience event, a variety of programs are implemented such as: large mud bath, mud wrestling competition, mud slide, military training experience in the

mudflat, ... At the same time, the city has many attractions, street food services for tourists.

+ FUN ACTIVITIES AT BORYEONG FESTIVAL:
